THE BENEFITS OF RETROFIT LED LAMPS OVER LED FIXTURES

The evolution of LED technology has given customers an increasing choice of solutions and easy access to this energy and maintenance saving solution. Below are just a few reasons to choose retrofit LED lamps over LED fixtures:

Cost effective – quicker return on investment:

LED lamps are a much more cost effective solution, which usually leads to a quicker return on investment.

Ease and cost of installation:

Retrofitting LED lamps is often as easy as taking the old lamp out and putting the new lamp in – typically resulting in low or no associated installation costs.

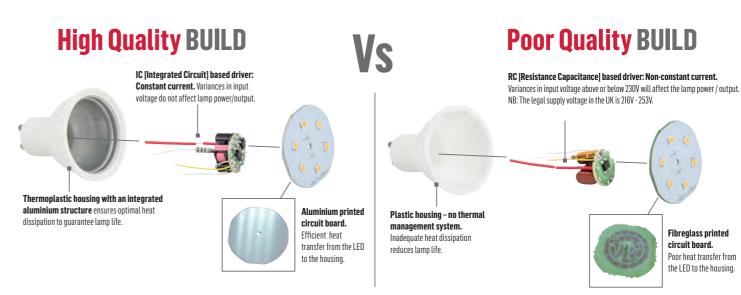

Easily maintained and low cost maintenance:

When an LED lamp comes to the end of its life, simply remove and replace it. No need to worry about the costs of electrical or cosmetic work usually associated with changing complete LED fixtures.

WHY DO SOME LED LAMPS COST MORE THAN OTHERS?

Don't be fooled by low cost, low quality alternatives.

The components used in high quality LED lamps deliver greater performance and reliability, but ultimately come at a higher cost.

With 390 stores across the UK, you are never far from a registered, fully licensed location that can legally deal with your lamp recycling

Waste Electrical and Electronic Equipment [WEEE] disposal regulations place a requirement on all businesses to store, transport and dispose of their electrical waste in a compliant manner

ર What does this mean for you?

The regulations require lamps to be separated and stored in appropriate compliant containers.

All lamps must be transported by a licenced waste carrier with accompanying official documentation.

These documents must be retained for three years.

Businesses are responsible for their waste right until its final destination, so it pays to choose the right company to ensure it's properly handled.

Let CEF keep you legal and compliant with our easy to use lamp recycling service

Your electrical waste experts

CHOOSE EITHER ON-SITE STORAGE OR DROP OFF AT YOUR LOCAL CEF STORE

- Choose from a selection of portable or on-site compliant containers to best suit your needs.
- When your container is full, simply call your local store to arrange an exchange within 4 to 6 working days.
- We will issue and retain your legally required consignment notes for the obligatory 3 years.
- We will safely and legally dispose of your lamps, recovering 98% of the material content.
