

80W HID Replacement

Features and Benefits

- 221 super-bright SMD's
- Up to 55% energy saving
- Suitable replacement for a 150W HID lamp
- Ideal for retro-fitting into high bays

EDLED/HID80	80	230	E40	120mm	205mm	8000	6000K

110W HID Replacement

Features and Benefits

- 275 super-bright SMD's
- Up to 60% energy saving
- Suitable replacement for a 250W HID lamp
- Ideal for retro-fitting into high bays

EDLED/HID110	110	230	E40	120mm	205mm	11000	6000K

150W HID Replacement

Features and Benefits

- 375 super-bright SMD's
- Up to 65% energy saving
- Suitable replacement for a 400W HID lamp
- Ideal for retro-fitting into high bays

ref	W	V	⚡	Ø	L	☀️	🌐
EDLED/HID150	150	230	E40	155mm	200mm	15000	6000K

Temperature Control System - The temperature of the lamps above are precisely maintained due to their unique aluminium structure, coupled with a high RPM fan situated in the base.

LED HID Replacement Range

Fusion Lamps HID series provide the perfect solution for replacement of high intensity discharge lamps.

Our unique thermal management systems facilitate optimal heat dissipation, allowing our products to be used in both open and enclosed fittings.

10W G12 HID Replacement

Features and Benefits

- Up to 90% energy saving
- Suitable replacement for 35W-150W HID lamps
- Ideal for retro-fitting into track lighting and wall washing style fittings

ref	W	V	⚡	∅	L	☀️	🌈
EDLED/G12CW	10	230	G12	28mm	103mm	1100	4000K

11W & 15W HID Replacement

Features and Benefits

- 57 super bright SMDs
- Up to 90% energy saving
- Suitable replacement for a 70W HID lamp
- Ideal for retro-fitting into bollards, bulkheads etc

ref	W	V	⚡	∅	L	☀️	🌈
EDLED/HID11	11	230	E27	65mm	166mm	1200	6000K
EDLED/HID15	15	230	E27	65mm	166mm	1500	6000K

All of the HID range feature:

- Low power consumption
- Long lamp life (30,000hrs)
- Low surface temperature
- No UV output
- Instant start
- Can be used in enclosed fittings

Retro-fitting can be achieved by simply bypassing the HID control gear and wiring directly to the lamp holder.

20W HID Replacement

Features and Benefits

- 84 super bright SMDs
- Up to 80% energy saving
- Suitable replacement for 70W HID lamps
- Ideal for retro fitting into miniature high bays, floodlights and lanterns

ref	W	V	⚡	∅	L	☀️	🌈
FHID20/E27	20	230	E27	93mm	178mm	2935	6000K

30W HID Replacement

Features and Benefits

- 84 super bright SMDs
- Up to 85% energy saving
- Suitable replacement for 70W - 150W HID lamps
- Ideal for retro fitting into low bays, high bays, floodlights and street lighting

ref	W	V	⚡	∅	L	☀️	🌈
FHID30/E27	30	230	E27	93mm	208mm	3825	6000K
FHID30	30	230	E40	93mm	208mm	3825	6000K

60W HID Replacement

Features and Benefits

- 156 super bright SMDs
- Up to 80% energy saving
- Suitable replacement for a 250W HID lamp
- Ideal for retro-fitting into lowbays, highbays, floodlights and streetlights

ref	W	V	⚡	∅	L	☀️	🌈
FHID60	60	230	E40	93mm	280mm	8825	6000K

Temperature Control System - The temperature of the lamps above are precisely maintained due to their unique aluminium structure, coupled with an intelligent temperature control system built in to the LED Driver to maintain the optimum temperature. Additionally on the 60W and above lamps, they also have a high RPM fan situated in the base to further dissipate heat.

85W HID Replacement

Features and Benefits

- 182 super bright SMDs
- Up to 80% energy saving
- Suitable replacement for 250W - 400W HID lamps
- Ideal for retro-fitting into lowbays, highbays, floodlights and streetlights

ref	W	V	⚡	∅	L	☀️	🌈
FHID85	85	230	E40	106mm	285mm	10955	6000K

100W HID Replacement

Features and Benefits

- 210 super bright SMDs
- Up to 80% energy saving
- Suitable replacement for 250W - 400W HID lamps
- Ideal for retro-fitting into lowbays and highbays

ref	W	V	⚡	∅	L	☀️	🌈
FHID100	100	230	E40	120mm	288mm	13625	6000K

120W HID Replacement

Features and Benefits

- 210 super bright SMDs
- Up to 75% energy saving
- Suitable replacement for a 400W HID lamp
- Ideal for retro-fitting into lowbays and highbays

ref	W	V	⚡	∅	L	☀️	🌈
